

Youth in Harmony Grants

<https://www.barbershop.org/about/grants>

Through the Harmony Foundation's generous annual support, the Barbershop Harmony Society is able to provide grant opportunities that create powerful community impact. Within the Land O'Lakes District, grants have provided funds for:

- Establishing the Wisconsin Youth Harmony Festival
- Funding several SuperSing events and other Youth in Harmony Festivals

We all know singing has power! It's the power to make individuals and communities healthier and happier. Singing, however, is rapidly becoming a spectator sport. Schools and communities cannot address this crisis alone. We can become powerful partners by advocating alongside the talented sea of vocal music educators and conductors.

Outreach is about working with others to promote the power of singing — singing anything — while increasing your visibility and influence within your community. Harmony Foundation International supports the outreach programs of the Barbershop Harmony Society to promote singing across the continuum of life to in turn build a better society.

HOW DO YOU TO APPLY?

The next Grant window to apply is February 1 - 28, 2019. The time is NOW to be writing your grant proposals!

To effectively expand the reach of Harmony Foundation grant activities, BHS has implemented an industry-standard grant request and review process that will better help you:

- Design more visionary and higher impact outreach activities
- Become better leaders in your community by growing community partnerships and understanding community needs
- Create grant requests that have an improved chance at receiving additional local funding

The **Youth Outreach Grant** is designed to help support youth and music educator workshops, one day festivals, and multi-day camps centered around youth education and the a cappella experience.

Applications will be accepted starting February 1, 2019.
